Water is the driving force of all nature. -Leonardo da Vinci

In the hot, dry stretches of summer, we can be deeply grateful for the gift of water: for water to cool our faces on a warm day, water to clean our bodies, water to quench our thirst. In many faiths and spiritual traditions, water holds great meaning. It is a symbol of life, of cleansing, of forgiveness, of community, and of wisdom. Here in the upper Midwest, bodies of water reveal to us the beauty of life, from trees and native plants growing on the banks of the river to ducklings and loon babies following behind their mothers across the glassy surface of a lake.

Do you have spiritual practices or meaningful memories that are centered around water? How might you remember and find spiritual grounding in water this month?

**Join us for a Car Show presented
